

*Engineering your dreams with us*

# PROFILE

## INTRODUCTION

**Too-See** is a proud provider of high quality engineering services and equipment. Our services and products include but are not limited to:

- Mechanical engineering design, construction, installation, maintenance and repairs of pumps, valves pressure vessels, and piping;
- Civil & structural engineering design, construction, maintenance and repairs of drains, culverts, waterways, buildings, and steel structures;
- Electrical engineering design, construction, maintenance and repairs of high and low voltage electrical systems.

Our competitive prices and wide range of products and services has made Too-See one of the best suppliers of engineering solutions to various clients in both the public and private sectors. With a wide range solutions and qualified staff, we can deliver these solutions to meet any customer requirements. We are always expanding our service offering in order to meet our clients' needs.

**Too-See** is a 100% black female owned and proudly Level 1 BBBEE contributor and is committed to continuously contribute to society through corporate social responsibility programmes.

## VISION

We aim to a top tier company in the provision of innovative engineering products and services in Africa.

## MISSION

To provide and deliver quality engineering products and services through the deployment of high level skills and competencies to our chosen clients at competitive prices, in a manner that.

## VALUES

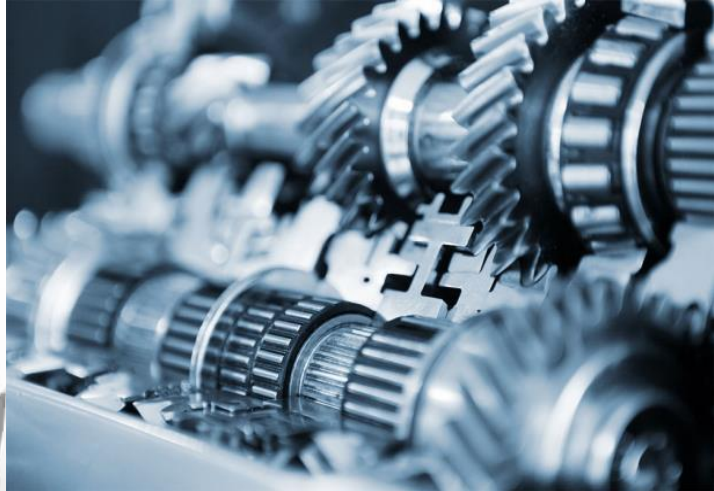

- Accuracy
- Quality
- Credibility
- Ethics
- Competency

Our products and services include the following: MECHANICAL ENGINEERING Supply, Design, modifications, installation, repairs & maintenance of:

## Pumps

## Gearboxes

## Valves

## Compressors

## Boilers

**Fabrication of:**

- Tanks & Columns
- Silencers
- Structural Steel
- Pressure Vessels
- Lifting Tripods
- Condensers
- Oil Coolers
- Heat Exchangers

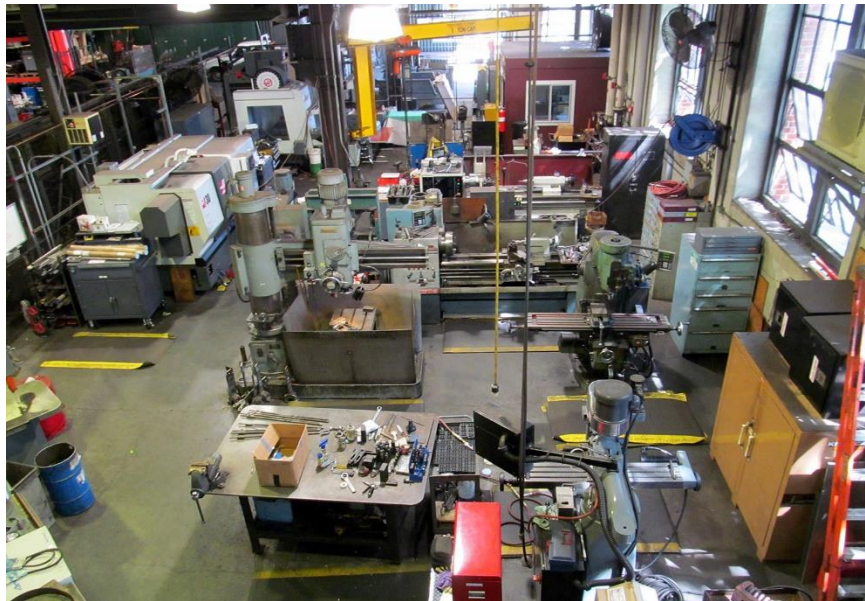

**With the following capabilities:**

- Micro welding
- Submersible arc welding
- Bending, profile cutting, plate rolling
- Pressure testing
- Non-destructive testing
- Sand blasting and painting

## Machine Shop

Conventional lathe machining for:

- Shafts
- Bearings and bushes
- Pump casings
- Spindles
- Sprockets

### **Vertical boring and horizontal boring**

- Milling
- Balancing
- Fixed 3D measuring

### **ELECTRICAL ENGINEERING**

Design, installation, commissioning, repairs and maintenance of:

- AC/DC drives
- Servo drives
- CNC Machine boards
- VFDs and PLCs
- All kinds of PC cards from various manufacturers
- Basic electrical wiring for plant, control rooms, workshops etc
- Uninterrupted Power Supplies
- Emergency Power Systems
- Transformers
- Switchgears
- Sub-stations

## CIVIL & STRUCTURAL ENGINEERING

Design and draughting of:

- Load bearing slabs and columns
- Beams & Frames

### **Foundations Construction, repairs and Maintenance of:**

- Culverts, shelverts, manholes
- Gabions
- Stormwater drains
- Paving and tarring
- Buildings

## QUALITY ASSURANCE

We strive to ensure customer satisfaction in the provision of our products and services to all our clients. Whilst working towards achieving our ISO certifications, we are committed to complying with all the requirements of the ISO quality management system, and are continually looking for ways to improve our work processes and procedures. Management has adopted a culture of "Quality is Conformance", which enables us to exceed our customer expectations in almost all instances.

## HEALTH & SAFETY

**Too-See** is committed to maintaining and safe working environment in compliance with the Occupational Health and Safety Act. To ensure that this is achieved, we have adapted the hazard identification and risk management strategies available in the engineering industry in order to prevent personnel injury, ill health, property damage, and to safeguard the environment. Management at Too-See is committed to the enforcement of the OHSA, and we are working towards our accreditation to the OHSAS 18001 standards.
